MESSAGE FROM :

VICE PRESIDENT - CIVIL SERVICE COMMISSION

SHAHEED MOHAMED

It is my pleasure to express a few words of gratitude and appreciation to the hard working team of the Civil Service Training Institute for the publication of the new Training Directory 2020. It is interesting to highlight the major improvements CSTI has achieved in 2019, and their expansion by including more courses, both short term and on-the-job trainings catered for civil servants.

I am satisfied that the CSTI team, together with the Ministries, Departments, Agencies and the Councils have collaborated well to accomplish their target trainings with the understanding that there is still more work to be done in the future for the mutual development. There is enormous value in organizing proper training and development sessions for the employees. Training is essential for the employees to acquire new skills and sharpen existing ones to perform better. It increases the morale of the employees, and less chance of making mistakes. Organizations should do everything in their scope to ensure that each and every employee receives the required training. The Training Directory will be a helpful guide that provides a whole year glimpse of what the Institute offers and how CSTI is prepared to accommodate requests from the organizations.

I wish to see more employees trained in 2020 and with their collective effort the organizations to become more productive and successful.

DIRECTOR - CIVIL SERVICE TRAINING INSTITUTE

FATHIMATH HABEEBA

It is with incredible pride that I present the Training Directory 2020 of Civil Service Training Institute. As we are preparing for the upcoming academic year, CSTI aims to keep on adding value to the human capital of Maldives civil service. With a successful experience regarding Job Specific Programs for the past two years, these programs will be continued with increased accentuation on job competencies required for the distinct job categories of the Maldives civil service.

Alongside this, CSTI's Monthly Special Programs have been improvised with a greater emphasis on concepts such as ethics, values and service excellence as these have been highlighted in the government's Strategic Action Plan. Moreover, training programs will be conducted with a more comprehensive focus on civil service policies and regulations to facilitate effective implementation of those policies. In addition, training programs in atolls will be designed to build staff into multi-tasking personnel with the capacity to carry out various facets of their jobs. This change is brought about keeping in mind the upcoming changes to administration of Local Council and the reform that all councils will go through.

It is our collective aspiration as Team CSTI that the programs comprised in this directory aids in transforming Civil Service to a dynamic and competent sector.

CIVIL SERVICE TRAINING INSTITUTE

Civil Service Training Institute (CSTI) is dedicated to help shape the public service by establishing a mechanism to train and develop the government employees and establish a career based system for the Civil Service.

VISION

To be a training and development institute of international standards, leading to the development of a modern world class civil service in the Maldives.

MISSION

To deliver high quality programs based on identified human resource needs, resulting in a cadre of civil service officers committed to delivering high quality service in the Maldives.

ATOLL TRAININGS

E-Learning / Virtual Learning (CS Essential Skills)

CSTI is moving towards reaching out to the civil servants scattered through out the Maldives via e-learning, and virtual learning. With the introduction of these 2 models of learning, trainings will be more conveniently delivered to the majority of the civil servants working in different parts of Maldives.

Capacity Development Program (Hybrid Skills Set Training)

Hybrid Skill Set Training will be conducted throughout the Atolls as Capacity Development Program this year. This program ensures all employees working in Atoll Councils to be equipped with the skill sets required to perform multiple tasks such as greet visitors, answer phones, update social media, websites, design presentation materials, as well as manipulating spreadsheets and database programs.

1

INDUCTION

This is a mandatory 5 day program aimed to welcome new recruits of civil service organizations. The focus of this program is to prepare the employees for their newly assigned jobs and tasks whilst imparting essential knowledge and skills required to perform their jobs.

HYBRID SKILL SET TRAINING

The Hybrid model is effective for organizations with few staff such as island councils. Hybrid skill set is a program designed with technical and non-technical skills combined. Therefore an administrative staff with hybrid skills will be able to perform multiple tasks such as greet visitors, answer phones, update social media, websites, design presentation materials, as well as manipulating spreadsheets and database programs.

2

3

SELF LEARNING TRAINING PACK

These training packs have been designed as a self-learning training program equipped with a guided trainer manual and can be conducted at the convenience of the organization. These programs have been developed to serve as an alternative means to complete the mandatory 6-hour training per employee according to the CS Training Policy. The programs can be accessed once a request is submitted to CSTI by the respective organization.

E LEARNING

E-learning refers to learning by utilizing electronic technologies. The main objective of developing e-learning programs at CSTI is to provide modern learning methodologies which can be utilized by offices to conduct the programs at a convenient time and location for the employees. A major emphasis has been placed on conducting these programs for civil servants located across the atolls since e-learning serves as a cost-effective and time-saving method to conduct trainings.
